

[Print this Page for Your Records](#)

You have accepted this invitation for your abstract to be presented as a poster at the ASHG 2020 Virtual Meeting!

Control Number - Abstract Title: 1656 - Single-cell transcriptomic analysis gives novel insights into the role of megakaryocytes and profibrotic factors in primary myelofibrosis.

Reminder: This year there are no poster presentation times during the Virtual Meeting. Presentations will be viewable on our virtual platform.

Important Poster Presenter Information

- As part of your presentation, ASHG requires disclosure of gene names and sharing of research data so that findings can be replicated, and other investigators with similar data can test findings against their own. Authors who do not provide gene names at the meeting will be subject to sanctions as determined by the Program Committee.
- When presenting data and health information (including photos), all presenters must have informed consent compliant with human subjects and applicable HIPAA regulation.
- Authors must disclose on their poster whether the abstract has been previously published. If the abstract has been previously published, authors should indicate the date of publication.
- You must [register](#) to be able to present your poster. Unregistered guests (i.e., friends, co-workers, etc.) will not be permitted to view posters.
- **Abstract Citation:** The following is a suggested style for citing ASHG 2020 Meeting abstracts: Example Only
 - Simpson R.S., Barnes P., Disruption of the microRNA pathway; (Abstract/Program #XX). Presented at the 70th Virtual Meeting of The American Society of Human Genetics, October x, Virtual Meeting.
 - Abstracts from previous ASHG Annual Meetings are available through the [Previous Meeting Abstract Archive](#). In your abstract citation, use the appropriate URL for the meeting at which the abstract was presented.

For questions, please contact the ASHG Programs Office at programs@ashg.org.

Your Response: Yes, I accept
